16 May 1969

MEMORANDUM FOR: Deputy Director of Special Activities

SUBJECT: Films Available for IDEALIST

1. Reference is made to our conversation during the late afternoon of 15 May 1969 relating to films available (particularly SO-121 (Color) for the various IDEALIST configurations. As I stated, I was not cognizant of types and quantities of rolls ordered by D/O/OSA and D/M/OSA for operational purposes, but I am of the opinion no SO-121 has been ordered for operational purposes. SSD/R&D has, however, ordered (See Attachments) limited number of various emulsions, including SO-121 for test purposes. If the need arises, these films could be utilized operationally, but, as you will note, the quantities are limited. In addition to quantities noted in attachments, four (4) rolls of SO-121 for Delta 3 ordered by SSD/R&D were delivered to the Depot 31 December 1968 and two (2) of these rolls were shipped to [] the latter part of February 1969. 25X1A

2. In brief, I believe the only SO-121 in our inventory are those amounts listed in the attachments and in paragraph 1 of this memorandum.
